Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Applicant's invention is a video gaming device with randomly selected game elements

displayed in a grid. Applicant has amended claims to further include the requirement to modify

only game elements in a column that has the appearance of a wild symbol and only if a wild

character would result in a winning condition. Prior art of record teaches the appearance of a

wild character, and changing game elements situated in a grid. Prior art however, does not

Application/Control Number: 10/646,312

Art Unit: 3713

provide the condition of only modifying elements restricted to a column in which a wild symbol appears and modifying the symbols only if the result would be a winning outcome.
